Newsquest Media Group purchases MAN Roland GEOMAN printing press

Newsquest Media Group, part of Gannett, and publisher of more than 300 local newspapers in England and Wales, has purchased a GEOMAN press from MAN Roland Druckmaschinen AG worth a medium double-digit million EUR amount. Delivery is scheduled for March 2004.

The web offset newspaper press will be installed in a new press hall on the Newsquest Oxfordshire site. The new press is to replace the existing 32 years old press and will meet the printing needs of Newsquest's businesses in Oxfordshire and Wiltshire – as well as wider needs within the Group. Titles to be printed will include two dailies – the Oxford Mail and the Swindon Evening Advertiser – plus The Oxford Times and Wiltshire's Gazette and Herald series.
